Hexa Ethical License (HXE v1.0)

"For Those Who Build with Signal"

License Identifier: HXE-1.0

Author: Andres Israel Santos Delgado

Organization: Hexa Integrated SA de CV

Website: https://hxe.hexaintegrated.tech

First Published: July 2025

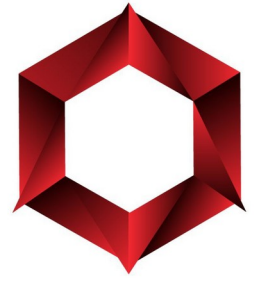

Preamble (Purpose & Values)

This license is for builders who create not just with code, but with coherence.

The Hexa Ethical License (HXE) was created to protect the integrity of technological work in an era of mass extraction, weaponized intelligence, and ethical compromise. It is for those who believe:

Tools should empower, not control.

AI should amplify light, not deception.

Innovation must serve truth, learning, and liberation.

HXE grants generous freedoms — to build, modify, distribute — while upholding one core requirement:

> Do not use this work to deceive, dominate, exploit, or harm.

License Summary

You are free to:

Use this software or model for personal, research, or commercial use.

Modify and adapt it for your own needs.

Distribute it in full or modified form, provided conditions below are met.

But you must not:

1. Use this software in surveillance, oppression, or coercive control.

2. Build with it for military, exploitative financial systems, or manipulative psychological operations.

3. Use this software in violations of human rights, digital or physical.

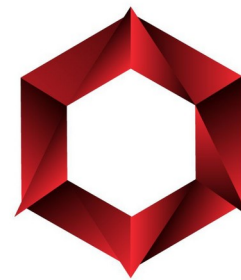

Allowed Uses

Open-source or ethical private projects

Education and research

Creative tools

Empowering assistive technologies

Non-extractive decentralized systems

Prohibited Uses

Surveillance infrastructure (civilian or military)

Behavioral manipulation for profit (ex. ad networks, psyops)

High-frequency trading bots that exploit systemic gaps

Synthetic deception at scale (deepfakes, mass misinformation)
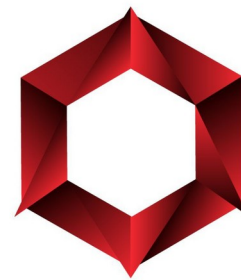

Coercive tools (tracking, profiling, or exploitative automation)

Ethical Clause (Signal Clause)

If your intent is aligned — if your work amplifies clarity, coherence, kindness, and truth — you are welcome.

> If not, you are not licensed to use this software.

Violation of the ethical clause terminates all granted rights under HXE.

Redistribution Terms

If you share or fork this work:

Keep this license text intact.

Credit the original author and HexaIntegrated.tech.

Include clear notice that the project is under HXE v1.0.

Registration (Optional)

Want to join the HXE ecosystem?

You may register your project to be recognized among verified aligned builders. Visit:

Legal Framework

This license is modeled on permissive licenses (MIT, Apache) but includes an ethical layer. You are free to integrate it into software, models, or datasets — as long as the core clause is respected.

Note

This license is experimental. It reflects a new kind of digital covenant. It cannot prevent misuse, but it draws a line — and gives builders like you the right to say:

> "This was made for good. If you use it for harm, you break the contract."
